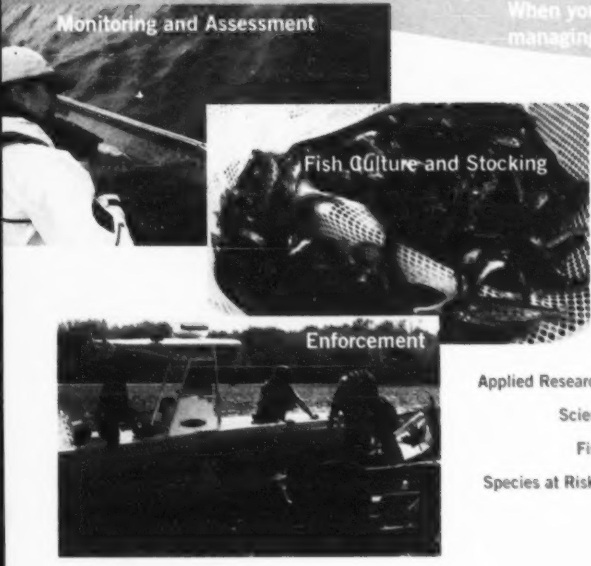
Your licence fees – Ensuring great fishing for years to come

When you buy a fishing or hunting licence, the fees go directly to managing Ontario's world-class fish and wildlife resources.



Monitoring and Assessment
Fish Culture and Stocking
Enforcement

All licence fees, fines and royalties go into the Fish and Wildlife Special Purpose Account, which funds such fisheries management programs as stocking fish, monitoring populations and enforcing regulations.

For 2011/12 the Special Purpose Account contributed approximately $68.2 million to fish and wildlife management in Ontario.

IMPORTANT NOTICE

This is a summary of information dealing with fishing licences and fishing laws. This summary is neither a legal document nor a complete collection of the current regulations. It is meant to be a convenient reference only.

For details on the current regulations see:

- Fish and Wildlife Conservation Act and regulations
- Federal Fisheries Act
- Ontario Fishery Regulations
  - Close times, fishing quotas and limits on the size of fish established in the Ontario Fishery Regulations may be changed through Variation Orders which are available at ontario.ca/fishing.

The maps presented in this summary are provided as a guide only. Due to the scale of the maps, the official plan (detailed information) for the boundaries of the Zones cannot be provided in this summary.

You can obtain specific details of the regulations, including more detailed maps of Zone boundaries, from ontario.ca/fishing or local MNR offices.

MESSAGE FROM THE GOVERNMENT OF ONTARIO

Recreational fishing is one of Ontario's most popular outdoor activities. With more than 250,000 lakes and countless rivers and streams, Ontario has a fishing opportunity around every corner.

Fishing is a great way to spend time together outdoors as a family. You can learn about the environment, strengthen family ties and connect with the natural world. Try fishing for the first time during the licence-free Family Fishing Weekend February 18 to 20, which coincides with the Family Day long weekend. You can also fish licence-free during Family Fishing Week, July 7 to 15.

Ontario's world-class fishery is a natural and cultural treasure that contributes almost $2.5 billion to the provincial economy. Each dollar anglers spend on licences goes into a special purpose account that is used for fish and wildlife management.

The province's phenomenal fisheries can be enjoyed during all four seasons. While some of the most sought-after sport fish are walleye, yellow perch, northern pike, brook trout and lake trout, more anglers are learning to appreciate lesser-known species like carp, gar and black crappie.

Fish ON-Line, our new interactive and user-friendly web tool, can help you make the most out of your fishing trip. Whether a new or seasoned angler, you can find out where to get a licence, when fishing seasons open, what kind of fish you can catch and how many you can keep, what lakes are being stocked with sport fish, how to get to your fishing destination and much more. Visit ontario.ca/fishing to start planning.

Ontario's management of fisheries, lakes and rivers is among the best in the world. By monitoring populations, working with the public to develop plans, rehabilitating habitat and conducting research, we are working to preserve and improve our fisheries. We also raise and stock up to eight million fish each year to rehabilitate populations and create more fishing opportunities.

Each of us can do our part to maintain the province's excellent recreational fisheries. Please read this summary and follow the rules. When we respect the natural environment and each other, we make Ontario a better place to enjoy all that the outdoors has to offer.

Our Cover

The cover image is a photograph of Fish Culture Technician Tracy Kubesheskis working at Chatsworth Fish Culture Station.

She is holding an adult lake trout which is used for breeding (broodstock). Lake trout are the largest member of the trout family and a favourite to catch through the ice. The Ministry of Natural Resources raises nine different strains of lake trout, which are stocked into Ontario waters each year. Our Fish Culture Program stocks approximately eight million fish annually. About half are stocked into Great Lakes waters, while the rest are stocked into inland waters. We raise and stock fish to maintain, enhance and create angling opportunities, and to conserve and restore Ontario's aquatic biodiversity.

2012
Fishing Ontario

Fish and Wildlife Heritage Commission

The Fish and Wildlife Heritage Commission was created in 2002 to advise the Minister on promoting hunting, fishing and other outdoor activities, funding of the Fish and Wildlife Program, and other matters as requested by the Minister. The commission consists of nine members who represent a cross-section of key interests in the sustainable use of our fish and wildlife resources. The commission continues to work on a number of important issues, including the development of strategies to engage youth in our fishing and hunting heritage.

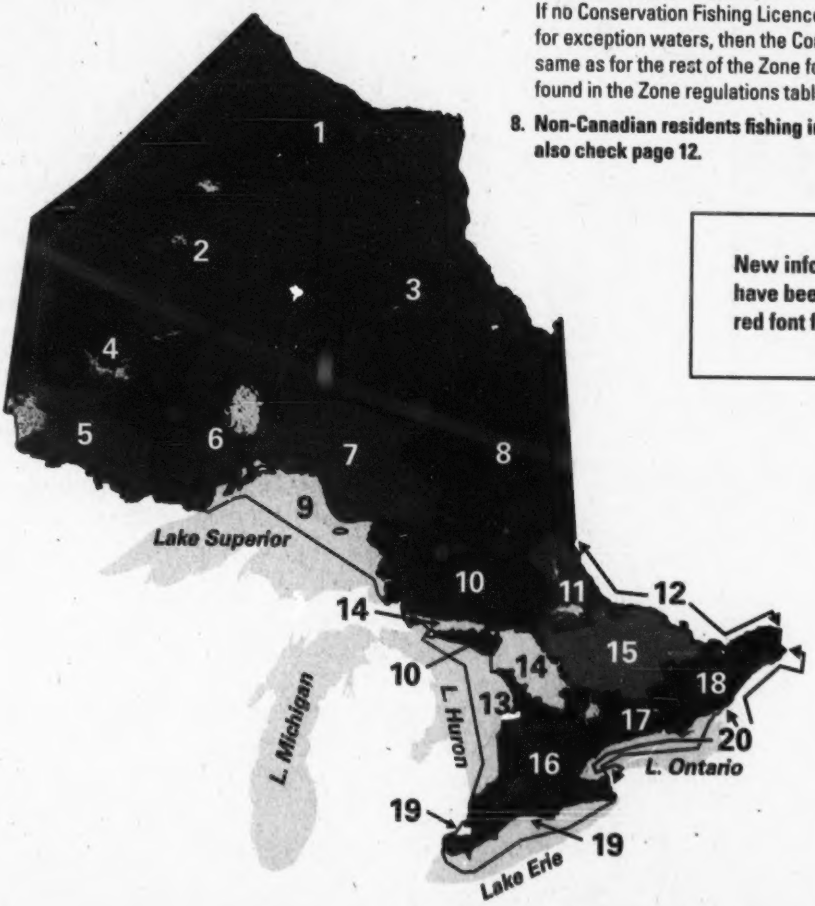
HOW TO USE THIS SUMMARY

For recreational fishing purposes, Ontario is divided into 20 Fisheries Management Zones (Zones). The map below indicates the general location of these Zones within Ontario.

Please follow these step-by-step instructions to be sure that you comply with the regulations.

1. **Make sure that you have a valid Ontario fishing licence.**
2. **Carefully read the general fishing regulations section.**

   Here you will find information that applies to fishing in all Zones, including general prohibitions, definitions, as well as information on ice fishing, bait, transporting fish, non-angling methods and laws to help stop the spread of invading species.
3. **Using the map below, determine the Zone in which you plan to fish. For more detailed information, see the Zone section in which you plan to fish.**
4. **Check the Zone regulations table to determine:**
   - the open season for fishing for any species you plan to target in that Zone.
   - the catch and possession limits and size limits, if applicable, for those species in that Zone.



5. **Remember that most catch and possession limits and some size limits are different for a holder of a Sport Fishing Licence than for a holder of a Conservation Fishing Licence.**
   - **S** - refers to limits under a Sport Fishing Licence. For example: S – 4 = catch and possession limit of four.
   - **C** - refers to limits under a Conservation Fishing Licence. For example: C – 2 = catch and possession limit of two.

   NOTE: all size limits refer to total length – refer to Angler's Guide to Fishing Regulations, page 7.
6. **Also, don't forget to check the additional fishing opportunities for each Zone to make the most of your fishing experience.**

THEN YOU MUST

7. **Check the exceptions to the general zone regulations for the waters or general area in which you will be fishing.**
   - If there are any exceptions to the general rule for the Zone, you must comply with those exceptions.

   NOTE: In some cases, lower limits or size limits stated in the exceptions apply only to Sport Fishing Licence holders. If no Conservation Fishing Licence limit or size limit is stated for exception waters, then the Conservation Licence limit is the same as for the rest of the Zone for that species and can be found in the Zone regulations table.
8. **Non-Canadian residents fishing in northwestern Ontario must also check page 12.**

New information and changes have been highlighted in bold red font for your convenience.

RECREATIONAL FISHING LICENCE INFORMATION

MOST PEOPLE NEED ONE OF THE FOLLOWING RECREATIONAL LICENCES TO FISH IN ONTARIO

Sport Fishing Licence: For anglers who want full catch and possession fishing privileges. In this summary, S - refers to limits under a Sport Fishing Licence (e.g. S - 4 = catch and possession limit of 4).

Conservation Fishing Licence: A reduced catch and possession limit licence that is ideal for anglers who want to live-release the majority of fish caught. Under this licence, anglers must immediately release muskellunge, Atlantic salmon and aurora trout. In this summary, C - refers to limits under a Conservation Fishing Licence (e.g. C - 2 = catch and possession limit of 2).

Refer to the Zone tables and the exceptions for catch and possession limits.

RESIDENCY DEFINITIONS

Ontario Resident: An Ontario resident is defined as a person whose primary residence is in Ontario and who has lived in Ontario for a period of at least six consecutive months during the 12 months immediately before applying for a licence.

Canadian Resident: A Canadian resident is defined as a person who is a non-Ontario resident and whose primary residence is in any part of Canada and who has lived in Canada for a period of at least six consecutive months during the 12 months immediately before applying for a licence.

Non-Canadian Resident: A person who is neither an Ontario nor Canadian resident.

RECREATIONAL FISHING LICENCE INFORMATION FOR ONTARIO RESIDENTS AND CANADIAN RESIDENTS

For Ontario Residents, a complete and valid licence to fish consists of an Outdoors Card or a Temporary Outdoors Card accompanied by a valid fishing licence tag for Ontario residents. This is either carried as a separate document from the Outdoors Card or embossed on the back of the card.

Ontario Resident fishing licences are available through licence issuers across Ontario, the website ontario.ca/outdoorscard or the automated telephone licensing line at 1-800-288-1155 (renewals only).

For Canadian Residents, a complete and valid licence to fish consists of an Outdoors Card or a Temporary Outdoors Card accompanied by a valid fishing licence tag for Canadian residents. This is either carried as a separate document from the Outdoors Card or embossed on the back of the card.

The Outdoors Card is a plastic, wallet-sized card, valid for three calendar years and is used for identification and administration purposes.

Canadian Resident fishing licences are available through licence issuers across Ontario or at the website ontario.ca/outdoorscard.

A person is deemed to be the holder of a Recreational Fishing Licence if they are:

1. Residents of Ontario and Canada under 18 years old, or 65 years of age or older and in possession of any licence, permit, certificate or identification card issued by the Government of Canada or a provincial or territorial government of Canada that indicates their name and date of birth.
2. Disabled Ontario and Canadian residents eligible for and in possession of:
   - a Canadian National Institute for the Blind National Identity Card issued to them; or,
   - an Ontario Ministry of Transportation Accessible Parking Permit issued to them; or,
   - a black and white photocopy or printed version of an electronic copy of the Ontario Ministry of Transportation Accessible Parking Permit accompanied by any licence, permit, certificate, or identification card issued by the Government of Canada or a provincial or territorial government of Canada that indicates the person's name and date of birth; or,
   - any licence, permit, certificate or identification card issued by the Government of Canada or a provincial or territorial government of Canada that indicates the person's name and date of birth where the individual must be accompanied by and require the direct assistance of another person to fish and follow applicable fishing laws due to a condition of mental impairment or a developmental disability, a learning disability or dysfunction, or a mental disorder. The person accompanying the above person does not require a fishing licence if they are only assisting, but must have a licence if they wish to engage in fishing.

Those who qualify to fish with a deemed licence must follow the same catch and possession limits as a Sport Fishing Licence.

Aboriginal people: Members of Ontario Aboriginal communities having established Aboriginal or treaty rights do not require an Outdoors Card or Ontario fishing licence tag to take fish for personal use within their traditional or treaty territory. Personal use means use for food, social or ceremonial purposes. Individuals should be prepared to provide identification when showing their community membership. Members of Aboriginal communities fishing outside of their traditional or treaty areas must have a valid Ontario Outdoors Card and fishing licence tag and follow the corresponding seasons, limits and exceptions.

RECREATIONAL FISHING LICENCE INFORMATION FOR NON-CANADIAN RESIDENTS

Anyone who is not an Ontario or Canadian resident (see residency definitions on this page) is considered a non-Canadian resident for the purposes of fishing licence regulations. Most non-Canadian residents require an Ontario fishing licence to fish in Ontario.

- Non-Canadian residents 18 years of age and over must purchase a fishing licence. **(NOTE: Non-Canadian residents 65 years of age or older are not exempt from requiring a licence.)**
- Non-Canadian residents under 18 years of age may fish without a licence if accompanied by a person who has a valid fishing licence. Any fish kept are part of the catch and possession limit of the person who holds the licence. As another option, non-Canadian residents under 18 years of age may purchase a licence to have their own limits.
- Non-Canadian resident fishing licences are available through licence issuers across Ontario or at the website ontario.ca/outdoorscard.
- For non-Canadian resident groups of children (at least five people under the age of 18 years), there is a special licence for members of an organized camp. This licence is available from ServiceOntario/ Ministry of Natural Resources offices (see page 96).

RECREATIONAL FISHING LICENCE INFORMATION (CONTINUED)

NOTE: Non-Canadian residents camping on Crown lands in northwestern Ontario are subject to conservation licence limits, except in the border waters area (see page 12).

***Canadian/non-Canadian resident anglers and hunters are reminded to bring their Outdoors Card when they return to Ontario to fish or hunt.**

NEW AUTOMATED LICENSING SYSTEM

In the fall of 2011, Ontario introduced a new automated licensing system for fishing and hunting licence sales. The new system will offer many benefits, including:

- an increased range of licences, available online and through the automated toll-free telephone system,
- new anglers will be able to purchase their first Outdoors Card online,
- easier replacement of lost or stolen licences and Outdoors Cards.

In addition to providing faster and easier access to licences, this system provides the ministry with better information for fish and wildlife management and enforcement, and increased administrative efficiency.

We will continue to expand licences available at licence issuing locations, the Internet and through the automated telephone line (IVR). Check back at ontario.ca/outdoorscard throughout spring as the list is updated.

APPLYING FOR YOUR OUTDOORS CARD

The delivery time for an Outdoors Card is approximately 20 days.

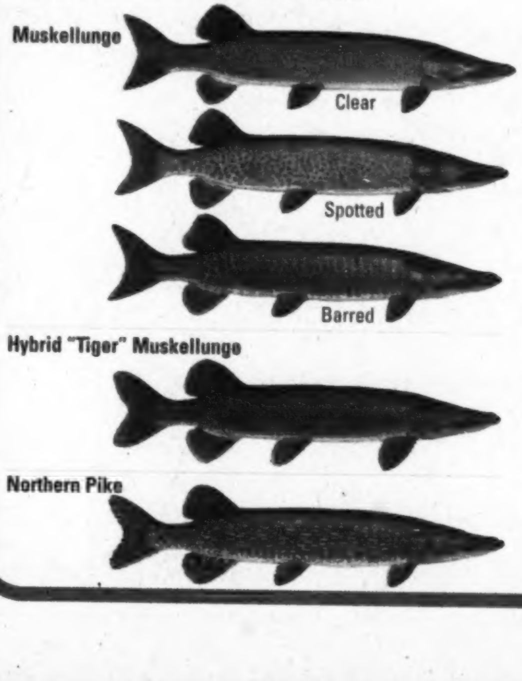
What you need to know about your Outdoors Card.

- You must notify the Ministry of Natural Resources of any address or name change **within 10 days** of the change. You can change your address or name by calling the Outdoors Card Centre at 1-800-387-7011.
- If your Outdoors Card is **lost** or **stolen** or if you need more information about Outdoors Cards or fishing licences, call the Outdoors Card Centre from anywhere in North America at 1-800-387-7011.
- You must carry your Outdoors Card/Temporary Outdoors Card and fishing licence tag with you whenever you are fishing. If a Conservation Officer asks to see your Outdoors Card, the law states you must show it.
- Your Outdoors Card is not transferable to another person – it provides privileges to you alone.
- It is an offence to attempt to obtain more than one card. It is also an offence to provide false information when applying for your Outdoors Card.
- One-year fishing licences expire December 31st of the year printed on the licence.
- Three-year fishing licences expire at the same time as the Outdoors Card, on December 31st of its third year. Your card's expiry year is shown in the two numbers following your 15-digit card number.
- If you've applied for an Outdoors Card and haven't received it within the stated timeframe, call the Outdoors Card Centre at 1-800-387-7011.

KNOW, CATCH AND CONSERVE THE MUSKELLUNGE

MUSKELLUNGE – NORTHERN PIKE

Know How To Tell The Difference



The muskellunge (muskie) is the top predator in the freshwater food chain. Muskie can weigh over 50 pounds and be 4 to 5 feet long. They are ferocious fighters and a highly sought after game fish. Since muskie are also rare, the size limits are accordingly high and the possession limits low.

It is very important for fishermen to know the difference between muskie and the much more common northern pike which has much lower size and higher possession limits.

Muskie are too valuable to have the joy of catching just once. Catch and release angling is strongly encouraged for anglers who catch a muskie. Capture your memory in a picture or fibreglass reproduction which will last forever.

Caught and released a muskie over 36 inches long? Submit the details to Muskies Canada and receive recognition of your fine catch and a release award sticker.

Visit the Muskies Canada website for more information
www.muskiescanada.ca

RECREATIONAL FISHING LICENCE INFORMATION (CONTINUED)

The 2012 one-year licence fees listed in this summary are in effect from January 1, 2012, until December 31, 2012. The 2012 three-year licence fees are subject to change after August 31, 2012.

For the location of the licence issuer nearest you, contact the Ministry of Natural Resources. A list of Ministry of Natural Resources offices and ServiceOntario contact information is provided on page 96.

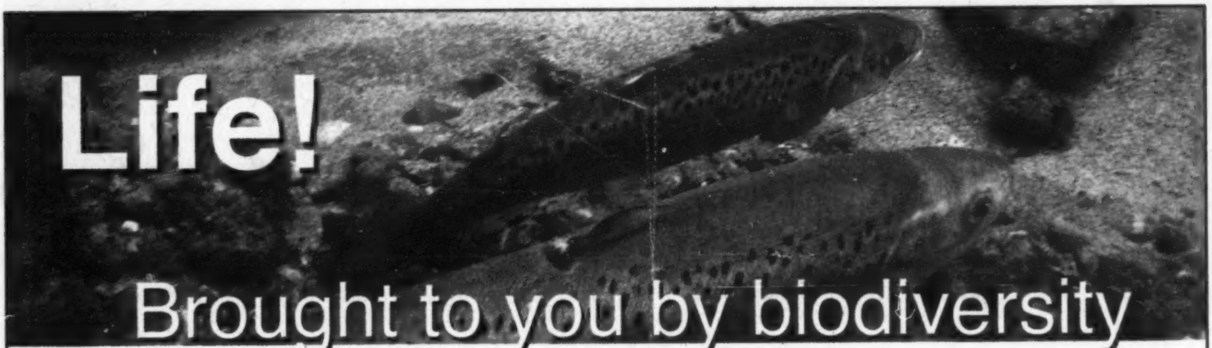
*** Eight-day fishing licences are valid for eight consecutive calendar days. A calendar day is a 24-hour period starting at 12:00 Midnight.



All living things are connected and rely on each other to survive – that's biodiversity. Across Ontario, anglers and hunters help protect biodiversity by restoring habitat, monitoring wildlife and preventing the spread of invasive species. You can help too by learning more about biodiversity, why it's important, and how to conserve it.

GENERAL FISHING REGULATIONS

ANGLER'S GUIDE TO FISHING REGULATIONS

NOTE: This section contains important information that anglers must understand to make sure they follow the regulations.

Additional Fishing Opportunities – There are some waters where regulations for certain species are more liberal than the Zone regulations. These include areas where anglers may fish for a species during part or all of the time when the season is generally closed in the Zone and include extended seasons or open all year seasons for some species. Often these additional opportunities are provided through fish stocking.

Aggregate Limits – Aggregate limits are catch and possession limits for a combination of fish species. Where there are aggregate limits, you may not catch and retain a separate limit of each species. In this summary, aggregate limits apply to: walleye and sauger; largemouth and smallmouth bass; and black and white crappie. The aggregate limits for these species can be found in the Zone-wide tables or in the exceptions for each Zone. See also Catch and Possession Limits, below.

Aggregate Limits for Trout and Salmon – In addition, throughout the province there are standard aggregate limits for all species of trout and salmon in combination. You may only catch and keep in one day or possess no more than five trout and salmon in total under a Sport Fishing Licence (**S** – 5) or two trout and salmon in total under a Conservation Fishing Licence (**C** – 2). **NOTE:** In addition to the aggregate limit, you may not exceed individual species limits where they are otherwise stated (e.g., the **S** limit for Atlantic salmon is one and you may not catch and keep or possess more than one Atlantic salmon at any time).

Angling – Angling means fishing with a line that is held in the hand or attached to a rod that is held in the hand or closely attended.

Artificial fly - An artificial fly means a hook dressed with silk, wool, fur, feathers or similar material, but does not include other types of artificial lures.

Artificial Lure – An artificial lure means a spoon, plug, jig, artificial fly or other such device that is designed to catch fish by means of angling.

Bait – There are some areas of the province where the use of any form of bait is not allowed. Bait includes live or dead animals, plants or parts. See Bait (page 10), or exceptions to the Zone regulations for the Zone where you are fishing.

Baitfish – Some species of fish may be used as bait in some areas (see Bait, page 10).

Barbless Hook – A barbless hook means a hook without barbs or one that has barbs that are compressed so as to be completely in contact with the shaft of the hook.

Catch and Possession Limits – The **catch** limit is the number of fish you are allowed to **catch and keep in one day** and includes fish that are not immediately released and any fish eaten or given away. The **possession** limit is the number you are allowed to have in your possession on hand, in cold storage, in transit, or anywhere. Possession limits are the same as one day's catch limit except where otherwise specified.

In this summary:

- **S** – refers to limits under a Sport Fishing Licence
  (For example: S – 4 = catch and possession limit of four).
- **C** – refers to limits under a Conservation Fishing Licence
  (For example: C – 2 = catch and possession limit of two).

If you catch a fish after reaching the daily catch or possession limit for that species, the fish must be released immediately back to the water (see Ontario's Catch and Retain Rules, page 9). If the limit is zero, anglers may practise catch and release only, and any fish caught must be released immediately back into the water in a manner that does not harm the fish. For some species there are no limits and no reference will be made to a limit in this summary (see Size Limits, page 8).

Change of Address – An Outdoors Card holder must notify the Ministry of Natural Resources of any address or name change within 10 days of the change. For additional information please see page 4 of this summary.

Check Stations – Conservation officers operate random "Fish Check Stations" throughout the year. At these stations, conservation officers collect information on fish taken and make sure that regulations are being followed in order to better manage our fisheries resources. Remember to keep all licences, equipment and fish easily accessible for inspection.

Competitive Fishing Events – Live fish cannot be transported overland without a permit. Live release boats for competitive fishing events must have a permit in order to transport the catches of multiple anglers and be in possession of more than a daily catch limit.

Conservation Officers – Conservation officers enforce fisheries regulations in the Province of Ontario. They have powers of inspection, arrest, search and seizure under the various statutes they enforce, including the *Fish and Wildlife Conservation Act* and the *Fisheries Act*. When carrying out their duties, conservation officers may:

- Stop and inspect a vehicle, boat or aircraft
- Ask questions relevant to the inspection
- Inspect buildings or other places
- Require assistance to complete inspections
- Enter onto private property to perform their duties
- Search with a warrant
- Search without a warrant in circumstances requiring immediate action
- Seize items related to an offence
- Arrest anyone they believe has committed, is committing, or is about to commit an offence.

Crappie – For the purpose of this summary, crappie includes both black crappie and white crappie.

Exceptions – In specified waters, there are exceptions to the general regulations established for each Zone. These include fish sanctuaries; bait and gear restrictions; and different seasons, limits and size limits for some species. **Anglers must check the exceptions for the waters where they will be fishing.**

NOTE: Some waters are grouped with other waters that have the same regulatory exceptions and these will generally be listed under the proper name for the largest or most significant water body. **If there is nothing stated in the exceptions, then the regulations for the Zone apply.**

Export of Fish – A person may, on leaving Ontario, take no more than the designated limits for fish.

GENERAL FISHING REGULATIONS (CONTINUED)

Fish Sanctuaries – Fish sanctuaries are described in the exceptions to Zone regulations. No fishing of any kind is permitted in a fish sanctuary. Some bodies of water, or parts of them, are declared fish sanctuaries for all or part of the year. Fish sanctuaries are not always marked with signs. **Sanctuary dates are inclusive; all dates including the first and last dates stated in the summary are closed.**

Fisheries Management Zone or Zone – The province is divided into 20 Fisheries Management Zones for which there are general regulations that establish open seasons, limits and size limits (where applicable) for popular fish species (see also Exceptions, page 7).

Hook – A hook includes a single-pointed or multiple-pointed hook on a common shaft but does not include a snagger or spring gaff. The number of hooks includes any single-pointed or multiple-pointed hooks that are part of a lure.

Hooks and Lines – An angler may use only one line, unless otherwise stated in the regulations. Two lines may be used when angling from a boat in parts of the Great Lakes (see exceptions to the general regulations) and for ice fishing in many areas (see Ice Fishing, page 11). A fishing line must not have more than four hooks attached.

Lead Sinkers and Jigs – It is illegal to use or possess lead fishing sinkers or jigs in Canada's National Parks and National Wildlife Areas. Further information is available at **http://www.cws-scf.ec.gc.ca/flf-psp/index_e.cfm**

Live Holding Boxes – If you use a live holding box or impounding device, it must be clearly marked with your name and address and it must be legible without having to lift the box, unless it forms part of or is attached to a boat. Any fish in holding boxes are part of your limit. Always monitor fish in your possession; allowing fish to waste is an offence. Catch and retain possession limits apply to live holding boxes.

Livewell – A livewell is a compartment designed to keep fish alive. For a livewell to be used to selectively release bass, walleye and northern pike, it must be attached to or form part of a boat, hold a total volume of not less than 46 litres (10 gallons) of water, have the capacity for water exchange and be mechanically aerated at all times when live fish are being held in it (see Ontario's catch and retain rules, page 9). **Remember, live fish may not be transported overland without a permit.** Livewells should be drained before leaving a waterbody.

Open Seasons – Fishing season opening and closing dates vary depending on the species and the area. Dates are inclusive; all dates including the first and last dates stated in the summary are open or closed. **It is illegal to attempt to catch fish for which the season is closed, even if you are going to release them.** Fish accidentally caught during the closed season must be immediately released back to the water. Unless stated otherwise, species that are not listed (such as sucker and rock bass) have a year-round open season.

Pacific Salmon - For the purpose of this summary, Pacific salmon include chinook salmon, coho salmon and pink salmon.

Size Limits – All size limits refer to **total length** which is a measure from the tip of the mouth with the jaws closed to the tip of the tail, **with the tail fin lobes compressed to give the maximum possible length.** Provincial regulations are established using the metric system.

NOTE: If you catch a fish in a restricted size range, you must release it immediately (see Units of Measure).

Sunfish – For the purpose of this summary, sunfish includes pumpkinseed, bluegill, green sunfish, warmouth, orange spotted sunfish, longear sunfish and *Lepomis* hybrids.

Units of Measure – There are many units of measure referred to in the summary. Provincial regulations are established using the metric system and converted to imperial measurement units for the convenience of anglers. The following short forms are used:

- km = kilometre (or mi. = mile)
- m = metre (or ft. = feet)
- cm = centimetre (or in. = inches)

GENERAL PROHIBITIONS – IT IS ILLEGAL TO:

- Transport live fish, other than baitfish, taken from Ontario waters or to transfer or stock any fish into Ontario's waters without a special licence to transport or stock fish.
- Transfer live fish or live spawn from one body of water to another without the authorization of the Ministry of Natural Resources.
- Possess any of the following live invasive species: rudd, ruffe, bighead carp, black carp, grass carp, silver carp, round goby, tubenose goby or any member of the snakehead family.
- Use live fish other than those listed as baitfish (page 10) for bait.
- Fish for or possess the following specially protected fish species: American eel, cutlip minnow and redside dace.
- Sell or buy any recreationally-caught fish (including taxidermy mounts), crayfish, leeches, frogs, fish eggs or spawn. Only holders of commercial fishing or commercial bait licences may sell their catch.
- Possess a spring gaff, snagger or spear gun within 30 m (98 ft.) of any waters. A spring gaff includes any spring loaded device which sets the hook for an angler. No person shall take fish with a gaff, snare, snagger or spear gun. A gaff, other than a spring gaff, may be used to assist in landing fish caught by lawful means.
- Catch a fish by impaling or snagging it with a hook through any part of the body other than the mouth – any fish hooked in this way must be released immediately.
- Take fish by any means other than angling, spear, bow and arrow, net or bait fish trap.
- Possess a spear for the purpose of fishing on or within 30 m (98 ft.) of the edge of any waters except when fishing in accordance with the regulations (see Non-angling Methods, page 11).
- Use artificial lights to attract fish except:
  - to fish for smelt, or to fish for lake whitefish or lake herring with a dip net
  - if the light is part of a lure attached to a line used in angling.
- Use dynamite or other explosives to take or destroy fish.
- Fish within 25 m (81.8 ft.) of a pound net or fish culture cage.
- Fish within 22.9 m (75 ft.) downstream from the lower entrance to any fishway or canal, obstacle, or any device designed to assist fish around an obstacle.
- Abandon fish or permit the flesh to spoil, if the fish is suitable for human consumption.

GENERAL FISHING REGULATIONS (CONTINUED)

ONTARIO'S CATCH AND RETAIN RULES

Generally, daily catch limits include all fish that are retained for any period of time and not ***immediately*** released.

Anglers fishing from a boat may now catch, hold, and selectively live release more walleye, northern pike, largemouth or smallmouth bass than the daily limit, ***provided***:

(a) the fish are held in a livewell with a mechanical aerator operating at all times (see Anglers Guide, page 8, for livewell requirements),

(b) the fish comply with any applicable size limits,

(c) the Sport or Conservation Fishing Licence daily catch and retain limits for walleye or northern pike are not exceeded at any one time,

(d) no more than six largemouth or smallmouth bass (or any combination) caught under a Sport Fishing Licence are retained at any one time, and

(e) the Conservation Fishing Licence catch and retain limits for largemouth and smallmouth bass (or any combination) are not exceeded at any one time.

Anglers are reminded to closely monitor the condition of fish held in a livewell. Only fish that are in such a condition that they will survive may be released (see Tips on Live Release of Fish, page 10). Releasing a fish that will not survive and allowing the flesh of that fish to be wasted is an offence. **Any fish not live-released are part of your daily catch and retain limit.**

TRANSPORTING SPORT FISH IN ONTARIO

It is contrary to the *Ontario Fishery Regulations* to stock or transport live sport fish without a permit.

Anglers need to ensure they are transporting fish in compliance with the regulations, which are designed to protect fisheries resources. The fish that you catch and keep may be cleaned. However, please remember that **fish taken from waterbodies where size limits are in effect must be readily measurable at all times, unless** the fish are:

- Being prepared for immediate consumption
- Prepared at an overnight accommodation for storage
- Being transported on the water from a temporary overnight accommodation to your residence and you are not engaged in sport fishing
- Being transported overland.

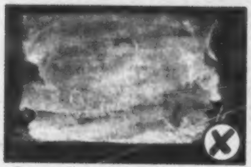
Do not transport live fish overland in a livewell filled with water. Fish must be dead and should be transported on ice.

In addition, when packaging fish you must ensure that a conservation officer can easily determine:

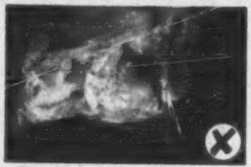
- The number of fish in your possession
- The species of fish in your possession. This may require leaving a large patch of skin, the head, or some other identifying feature depending on the species of fish (e.g. lake whitefish vs. lake herring).

TIPS FOR PACKAGING FISH

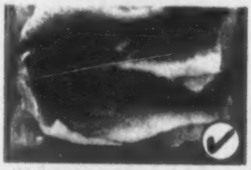
1. All fish must be packaged so that they can be easily counted and identified, not just those with limits.
2. To ensure fish can be easily counted, package each fish separately, or arrange fillets spread flat in a clear freezer bag. **DO NOT** freeze fillets in a milk carton, margarine tub or other container. A large lump of fillets frozen together in bags is also unacceptable.
3. Since anglers often transport various species of fish, it's their responsibility to ensure every fillet of their catch can be easily identified. Ensure you leave at least a large patch of skin on all fish fillets for identification purposes. Some species (e.g. lake whitefish or lake herring) may require additional identifying features such as the head.
4. Conservation officers may inspect your catch at any time. Always have your fish and your licence easily accessible, and place coolers of fish where they can be easily inspected.
5. If a conservation officer inspects the sport fish you're transporting and they are improperly packaged:
   - your catch may be seized for evidence
   - you could get a ticket and be fined
   - you may have to attend court, usually close to where the inspection took place, which may be far from where you live.



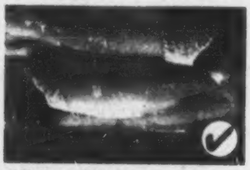
- Frozen fish fillets without skin attached
- Species cannot be identified
- Numbers can be counted



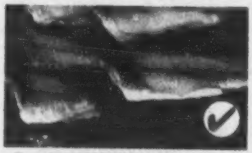
- Fillets form a frozen block
- Numbers cannot be counted
- Species cannot be determined on all fillets



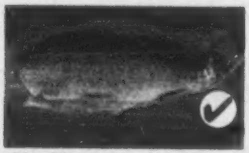
- Walleye fillets properly packaged
- Whole skin attached
- Can be counted and identified



- Walleye fillets
- Patch of skin attached
- Can be counted and identified



- Perch and Walleye fillets
- Patch of skin attached



- Pike fillets
- Individually packaged

TIPS ON LIVE RELEASE OF FISH

Using proper handling and release techniques improves fish survival. Here are some tips for releasing fish.

1. Use barbless hooks and artificial lures (no organic bait) to prevent deep hooking.
2. Land fish as quickly as possible and use a rubber landing net if needed.
3. Keep the fish in the water as much as possible and handle the fish gently.
4. Wet your hands or use wet cloth gloves when handling fish out of water.
5. Do not touch the gills or eyes. Grasp the fish just behind the gill covers, or for fish without teeth (for example, bass or panfish), hold the fish by the lower lip.
6. Use long-nose pliers to remove the hook quickly without injuring the fish. If the fish is hooked deeply, cut the line and leave the hook in.
7. If you want to take a picture, be ready ahead of time. Hold the fish in a horizontal position supporting its weight with your arm and hands, and take pictures quickly, minimizing the time the fish is out of water.
8. When releasing the fish, hold it in the water so that it is facing into the current or if there is no current, gently move the fish in a forward direction so water flows through the gills.
9. When the fish begins to struggle, is breathing normally and can keep its balance, let it swim away.
10. Remember that all fish not immediately released count towards your daily catch or possession limits (also see Ontario's catch and retain rules, page 9).

BAIT

Only individuals with a valid bait licence can sell baitfish and leeches. Anglers with a valid recreational fishing licence may capture their own bait for personal use as follows:

BAIT	LIMIT	NOTES
Baitfish	120 Includes those caught and/or purchased. See list of permitted baitfish species.	Only resident anglers may capture baitfish, using the methods outlined below. One baitfish trap no more than 51 cm (20 in.) long and 31 cm (12.2 in.) wide can be used day or night. Baitfish traps must be clearly marked with the licence holder's name and address. One dip-net no more than 183 cm (6 ft.) on each side if square, or 183 cm (6 ft.) across if circular, during daylight hours only (after sunrise and before sunset). **Dip-nets and baitfish traps may not be used in Algonquin Park.**
Leeches	120 Includes those caught and/or purchased.	Only one leech trap no more than 45 cm (17.7 in.) in any dimension can be used day or night to capture leeches. Leech traps must be clearly marked with the licence holder's name.
Crayfish	36	Must be used in same water body where caught. May not be transported overland. May be captured using the methods outlined for baitfish above.
Frogs	12	Only northern leopard frogs may be captured or used as bait.

NOTE: The capture and use of bait is not allowed in some waters (see other Zone regulations or exceptions for the Zone you are fishing in).

SALAMANDERS CANNOT BE CAPTURED, IMPORTED, OR USED AS BAIT IN ONTARIO.

IMPORT OF BAIT

It is illegal to bring any crayfish, salamanders, live fish or leeches into Ontario for use as bait.

NO RELEASE OF BAIT

It is illegal to release any live bait or dump the contents of a bait bucket, including the water, into any waters or within 30 m of any waters (see page 13).

BAITFISH

Please note that a number of changes have been made to bait regulations to protect rare and endangered species, conserve biodiversity and prevent the spread of invasive species. Anglers may not use live yellow perch and alewife as bait anywhere in Ontario.

Baitfish

Anglers are responsible to ensure that any baitfish in their posession are permitted baitfish. Only the fish species listed below may be used as live bait:

Minnows
Blacknose shiner
Blackchin shiner
Bluntnose minnow
Brassy minnow
Central stoneroller
Common shiner
Creek chub
Eastern blacknose dace
Emerald shiner
Fallfish
Fathead minnow

GENERAL FISHING REGULATIONS (CONTINUED)

GAME AMPHIBIANS AND REPTILES

Holders of valid recreational fishing licences may catch and retain bullfrogs and snapping turtles during open seasons. For details on harvest areas, season dates and catch and possession limits, see the Ontario Hunting Regulations Summary.

ICE FISHING

Two lines may be used for ice fishing except in a limited number of waters (see the exceptions for the Zone in which you are fishing). You must be within 60 m (197 ft.) at all times of any line or tip-up you are using when ice fishing and you must have a clear and unobstructed view of the lines being used at all times. Any spring-loaded device which sets the hook for an angler may not be possessed within 30 m (98 ft.) of any waters.

ICE HUT REGISTRATION

Ice fishing huts must be registered if they are being used in the following Fisheries Management Zones and must be removed by the dates indicated below. To register an ice fishing hut contact your local MNR office. Once registered, an ice fishing hut can be used anywhere in Ontario.

ZONES IN WHICH ICE HUT REGISTRATION IS REQUIRED	ICE HUT REMOVAL DATE
17, 20	March 1
14, 16, 18, 19	March 15
9, 10, 11, 15	March 31
12	Above Lake Timiskaming Dam - March 31 Below Lake Timiskaming Dam - March 15

Ice hut registration numbers must be at least 6.3 cm (2.5 in.) in height and clearly displayed on the outside of the hut.

You do not need to register your ice hut or abide by specific removal dates:

- in Zones 1-8 and 13, or
- if your ice hut is a tent made of cloth or synthetic fabric that has a base area of seven square metres (75.4 square feet) or less when erected.

Note: It is an offence under the Public Lands Act to leave your ice hut out after ice break up, regardless of whether registration and removal dates apply.

NON-ANGLING METHODS OF CAPTURING FISH

Residents and non-Canadian residents with a valid recreational fishing licence may fish with one dip net, one seine net, one spear or a bow and arrow for the species and during the periods outlined below.

Dip nets may be no more than 183 cm (6 ft.) on each side if square, or 183 cm (6 ft.) in diameter, if circular.

Seine nets may be no more than 10 m (32.8 ft.) long and 2 m (6.5 ft.) high.

Spears cannot be possessed on or within 30 m (98 ft.) of the edge of any waterbody except when fishing for carp and white sucker as described on this page. ***Northern pike spearing is not allowed.***

Bow and arrow: includes all longbows.

GENERAL FISHING REGULATIONS (CONTINUED)

BOUNDARY WATERS

Licences for Provincial Boundary Waters

Ontario-Quebec Boundary

Anglers may fish in the following waters with either an Ontario Resident Fishing Licence or a Quebec Resident Fishing Licence.

- Clarice Lake (48°20'N., 79°32'W.).
- Labyrinth Lake (48°14'N., 79°31'W.).
- Raven Lake (48°03'N., 79°33'W.).
- Lake Timiskaming (47°20'N., 79°30'W.).
- Ottawa River (45°34'N., 74°23'W.).
- Lake St. Francis (45°08'N., 74°25'W.) and the waters of the St. Lawrence River between the dam at the Robert H. Saunders Generating Station and the Ontario-Quebec boundary.

Ontario-Manitoba Boundary

Anglers may fish in the following waters with either an Ontario Resident Fishing Licence or a Manitoba Resident Fishing Licence.

- Garner Lake (50°48'N., 95°11'W.).
- Davidson Lake (50°21'N., 95°09'W.).
- Ryerson Lake (50°23'N., 95°09'W.).
- Mantario Lake (49°95'N., 95°10'W.).
- Frances Lake (51°43'N., 95°08'W.).
- Moar Lake (52°00'N., 95°07'W.).
- High Lake (49°42'N., 95°08'W.).

Limits in Boundary Waters

Anglers who fish in waters that lie both in Ontario and another province or state must include the total number of fish caught anywhere in those waters as part of the number caught and kept or possessed under the Ontario recreational fishing regulations when bringing those fish into Ontario.

CROWN LAND CAMPING AND BORDER WATERS AREA REGULATIONS

Crown Land Camping

In Ontario, travel for recreational purposes on Crown lands and waters is generally free and unrestricted. On most Crown land, camping is allowed free for Canadian residents at any individual site for up to 21 days each calendar year. After 21 days, campers must move a minimum of 100 m to a new site. Please note, camping may be prohibited or additional restrictions may be placed on some areas of Crown land; these locations are signed and regulated under the authority of the Public Lands Act. As well, some Crown lands may have restricted-travel zones for forest fire prevention, officially closed forest-access roads or specific areas posted with signs to prohibit all or certain kinds of uses or travel.

Non-residents of Canada 18 years of age or older, except those using a camping unit rented from a person who carries on an Ontario-based business (commercial outfitter), require a permit to camp on Crown land in Northern Ontario (north of the French and Mattawa rivers). There are some additional exceptions to the requirement for a permit. Contact your local MNR office for more information. A camping unit is defined as equipment used for the purpose of outdoor accommodation and includes a tent, trailer, tent-trailer, recreational vehicle, camper-back and any watercraft equipped for overnight accommodation. Contact a ServiceOntario Centre or licence issuer for permits.

Non-residents are prohibited from camping on some specific areas of Crown land in Northern Ontario at any time of year. These areas are generally well signed; however, anglers are advised to check with the local ministry office for complete information on areas where non-resident camping is prohibited.

If a non-Canadian resident is camping on Crown land in FMZs 2, 4, 6 and parts of FMZ 5, he or she may not take fish in excess of the conservation catch and possession limits. Non-Canadian residents camping on Crown land in FMZ 5 within the "Areas affected by International Border Water Regulations" (see map page 22) have different catch and possession limits for walleye, sauger and lake trout. For more information on the exact boundary of these waters and the applicable fishing limits, contact the nearest ministry office.

Winnipeg River and the Sydney Lake Area

There are also exceptions for the Winnipeg River, Zone 5 and the Sydney Lake Area, Zone 2 and 4 that affect non-Canadian resident anglers (see exceptions for Zones 2, 4 and 5).

BE FireSmart.

ontario.ca/fireprevention

Build a safe campfire not a wildfire

Safe Campfires are:

1. built on bare soil or exposed rock
2. sheltered from the wind
3. located at least three metres from the forest, overhanging branches or other flammable material.

Safe Campfires have:

4. a pail of water and a shovel at hand to control the fire
5. someone tending them all the time.

Safe Campfires are:

6. small. A small fire is best for cooking, and is easier to control and put out. The forest is no place for a bonfire.
7. put out as soon as possible. How? Douse with water then stir the ashes with a stick or shovel to uncover hot coals, and douse again.

LAWS TO HELP STOP THE SPREAD OF INVADING SPECIES

Harmful introduced species are often spread unknowingly. As an angler or boater, you should always take precautions to help stop the spread of invading species. The following laws are in place to prevent unauthorized introductions.

POSSESSING LIVE FISH

It is illegal to possess live invasive fish, including round goby, tubenose goby, grass carp, bighead carp, black carp, silver carp, rudd, ruffe and any species of snakehead. If any of these species are caught, they should be destroyed and not released back into any waters.

MOVING LIVE FISH

Many new populations of fish have been established through unauthorized stocking. This practice is illegal and can cause great harm to existing fisheries and aquatic ecosystems. **A licence is required for all fish** (including live spawn) **transfers and stocking into Ontario waters, and a licence is required to ship or transport live fish, other than baitfish, taken from Ontario waters.** Also, take care when cleaning smelt. Do not rinse equipment or dump entrails into a lake or river. Fertilized smelt eggs can easily invade new waters.

AQUARIUM FISH

Never release or flush pets, plants or water from aquaria, backyard ponds or water gardens. It is illegal and can harm the environment. If you have an unwanted aquarium pet, you can return it to a local pet store, donate it to a school or contact the Fish Rescue Program at **1-800-563-7711**.

CRAYFISH

Crayfish can only be used for bait in the waterbody in which they were caught and they cannot be transported overland.

ROUND GOBY

The round goby is frequently caught by anglers. It is just one of the many serious threats to North American waters. Since its discovery in the St. Clair River in 1990, this bottom-dwelling fish has rapidly spread to many areas of the Great Lakes and inland waters. The round goby can displace native fish from optimal habitat, eat their eggs and young, and spawn multiple times a season. Anglers should know how to identify the round goby - these aggressive fish are easily caught by hook and line.

Fin may be tinged in green
Black spot
Frog-like raised eyes
Thick lips
Body mostly slate gray, mottled with black to brown spots
Single suction-cup like pelvic fin

WHAT YOU CAN DO...

- Report new sightings. If you catch a round goby it should be destroyed and not released back into any waters.
- Always dispose of your unwanted bait and the contents of your bait bucket or bait bucket water on land or in the trash. It is illegal to dump the contents of a bait bucket into any waters or within 30 metres of any waters.
- Never use gobies as bait. It is against the law to use gobies as bait or have live gobies in your possession.

For more information or to report a sighting, call the **Invading Species Hotline 1-800-563-7711** or visit www.invadingspecies.com.

BY SPREADING THE WORD AND TAKING ACTION AGAINST INVADING SPECIES YOU CAN HELP CONSERVE ONTARIO'S HEALTHY FISHERIES!

WHAT YOU SHOULD KNOW ABOUT VHS

Help Slow the Spread of VHS

Viral Hemorrhagic Septicemia (VHS) is an infectious disease of fish. VHS is not a threat to human health. Fish carrying the VHS virus are safe to eat and handle.

You can help slow the spread of this virus and other invasive species by following the laws outlined above (Laws to Help Stop the Spread of Invasive Species) and the guidelines on page 57 (Keep All Our Lakes Great).

Anglers are asked not to move bait from the VHS management zone to areas outside the zone.

More information is available at ontario.ca/fishing or call the Natural Resources Information Centre at 1-800-667-1940.

A Message from Ontario's Conservation Officers

Know your **daily** fishing limit for the waters you intend to fish. You may only catch your own limit. There are no provisions for "party" fishing or excluding fish that you may have consumed or plan to consume that day.

Ontario's Fish Culture Program

Conserving and restoring biodiversity
Creating social and economic benefits

The Ontario Ministry of Natural Resources stocks approximately eight million fish annually. About half are stocked into Great Lakes waters, while the rest are stocked into inland waters.

We raise and stock healthy, wild strains of native species into more than a thousand water bodies each year to help conserve and restore Ontario's aquatic biodiversity.

Wild strains of lake trout and brook trout are raised at facilities like the recently modernized Dorion facility near Thunder Bay and Chatsworth facility near Owen Sound to help rehabilitate local fish stocks. We are working to restore Atlantic salmon to Lake Ontario and helping to prevent the extinction of aurora trout in northeastern Ontario.

We also stock fish to maintain, enhance and create angling opportunities. Walleye, chinook, rainbow trout, brown trout and splake are all prized by sport anglers. By stocking these fish, we also help conserve biodiversity by reducing angling pressure on stocks that are sensitive to over-harvest.

For the most recent stocking summary, go to **ontario.ca/fishculture**. For information on where fish are stocked in the province and which waterbodies are home to which game fish species, go to **ontario.ca/fishing** and click on the Fish ON-Line tool.

Anglers will be checked for illegal bait

Every year, conservation officers check for anglers who are in possession of illegal bait. In Ontario, it is illegal to possess or use invasive species such as goby, ruffe and rudd, or any live fish other than baitfish, as bait.

Crayfish can only be used in the waterbody in which they were caught and they cannot be transported overland.

The increasing spread of invasive species poses a serious threat to all aspects of our sport fishery, including the economy and local ecology. They can also spread disease to fish and wildlife, which may affect human health.

It is the angler's responsibility to know what species may be used as legal bait. A list of legal bait is included in this summary.

Ontario's conservation officers will be actively checking anglers' bait for illegal species that threaten our natural fisheries resource.

For more information on invasive species, please visit www.invadingspecies.com

A Message from Ontario's Conservation Officers

Size limits ensure that the primary breeding size fish are protected to maximize reproductive capacity. If you keep illegal sized fish, you are harming the very fishery you hope to enjoy in the future.

1-877-TIPS-MNR (847-7667)

You Can Help Fill In the Blank

Trout and salmon roe taken under a sport fishing licence cannot be legally bought or sold.

The sale of trout and salmon roe threatens fish stocks in your rivers and lakes and is often accompanied by the wastage of the spawning fish. Spawning fish are the life blood of a river or lake as their eggs and offspring form a critical link within the delicate ecosystem.

Solving a crime is like putting a puzzle together, each piece of information is important and your call can help fill in the blanks.

If you have any information about the sale of trout or salmon roe, or any other crime, call Crime Stoppers at

1-800-222-TIPS(8477)

All calls to Crime Stoppers Remain anonymous and you could be eligible for a cash reward.

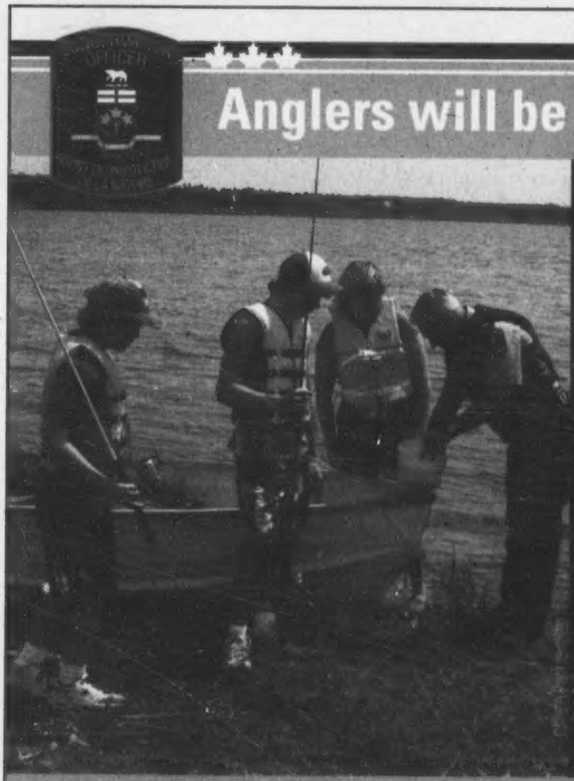
Anglers will be checked for illegal bait



Every year, conservation officers check for anglers who are in possession of illegal bait. In Ontario, it is illegal to possess or use invasive species such as goby, ruffe and rudd, or any live fish other than baitfish, as bait.

Crayfish can only be used in the waterbody in which they were caught and they cannot be transported overland.

The increasing spread of invasive species poses a serious threat to all aspects of our sport fishery, including the economy and local ecology. They can also spread disease to fish and wildlife, which may affect human health.

It is the angler's responsibility to know what species may be used as legal bait. A list of legal bait is included in this summary.

Ontario's conservation officers will be actively checking anglers' bait for illegal species that threaten our natural fisheries resource.

For more information on invasive species, please visit www.invadingspecies.com

Going Fishing? Be **Bear Wise**

Ontario's lakes, rivers and streams are important habitat for black bears. To avoid encounters with black bears in their home, here are some tips.

- Scan your surroundings to check for bears.
- Give bears a chance to avoid you. Make noise. Talk, whistle or sing, especially if you are in an area with thick vegetation, running streams or waterfalls.
- Keep wildlife wild. Intentionally feeding or approaching wildlife is dangerous.
- Seal garbage in a bag, and always take it with you when you leave.
- When camping, keep food, toiletries and clothes worn while cooking out of the tent.

If you would like to report a bear problem, call 1-866-514-2327. In a life-threatening emergency, call 911 or the local police.

Check Before You Eat

Fish offer an excellent source of high-quality protein and other essential nutrients, but some fish from Ontario waters can contain high levels of contaminants.

✓ Find out what fish from Ontario's lakes and rivers are safe to eat.

✓ Use the interactive map to help identify species and angling destinations with lower levels of contaminants.

The guide can also be found at select LCBO stores and government offices.

Anglers & Boaters You can help!

Before you leave the boat launch:

- ✓ Remove all aquatic plants, mussels and other visible organisms and put them in the garbage.
- ✓ Drain the water from your boat including the motor, livewell, and the bilge.
- ✓ Do not release live bait! Empty your bait bucket on land, 30 metres away from the waters edge.
- ✓ Remove organisms you can't see on your boat by:
  - rinsing with hot water, or
  - spraying with high-pressure water, or
  - drying in the sun for five days.

Working Together to Bring Back a Part of Ontario's Natural Heritage

Lake Ontario Atlantic Salmon Restoration Program

Many individuals and organizations are working to restore wild Atlantic salmon to Lake Ontario.

As an angler, you can help. Lake Ontario streams are closed all year to Atlantic salmon fishing. If you catch an Atlantic salmon, it must be released immediately into the stream, unharmed.

When fishing on Lake Ontario with a Sport Fishing Licence, you may not catch and keep or possess more than ***one Atlantic salmon over 63 cm (24.8 inches)***. The limit is zero for holders of a Conservation Fishing Licence.

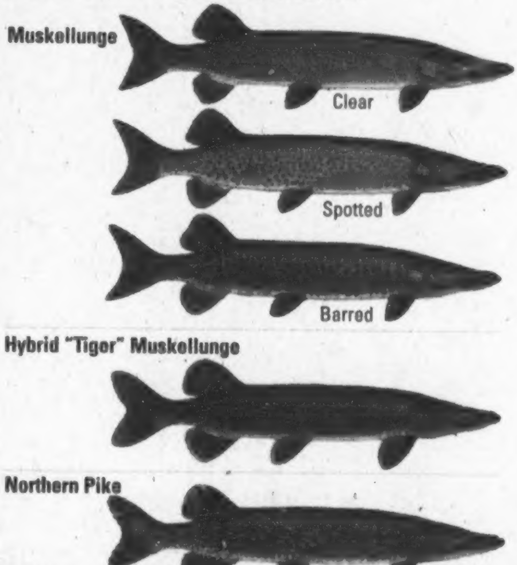
KNOW, CATCH AND CONSERVE THE MUSKELLUNGE

MUSKELLUNGE – NORTHERN PIKE
Know How To Tell The Difference



The muskellunge (muskie) is the top predator in the freshwater food chain. Muskie can weigh over 50 pounds and be 4 to 5 feet long. They are ferocious fighters and a highly sought after game fish. Since muskie are also rare, the size limits are accordingly high and the possession limits low.

It is very important for fishermen to know the difference between muskie and the much more common northern pike which has much lower size and higher possession limits.

Muskie are too valuable to have the joy of catching just once. Catch and release angling is strongly encouraged for anglers who catch a muskie. Capture your memory in a picture or fibreglass reproduction which will last forever.

Caught and released a muskie over 36 inches long? Submit the details to Muskies Canada and receive recognition of your fine catch and a release award sticker.

Visit the Muskies Canada website for more information

Going Fishing? Be **Bear Wise**

Ontario's lakes, rivers and streams are important habitat for black bears. To avoid encounters with black bears in their home, here are some tips.

- Scan your surroundings to check for bears.
- Give bears a chance to avoid you. Make noise. Talk, whistle or sing, especially if you are in an area with thick vegetation, running streams or waterfalls.
- Keep wildlife wild. Intentionally feeding or approaching wildlife is dangerous.
- Seal garbage in a bag, and always take it with you when you leave.
- When camping, keep food, toiletries and clothes worn while cooking out of the tent.

If you would like to report a bear problem, call 1-866-514-2327. In a life-threatening emergency, call 911 or the local police.

Have you seen an American Eel?

You can help!

The Ministry of Natural Resources would like to know if you see or catch an American eel. This is an endangered species protected under Ontario's Endangered Species Act. In recent decades, this species has declined in numbers due to a variety of factors, including over-fishing, migration barriers, hydro facilities, habitat loss, parasites and pollution. The occurrence of eels has not been well documented and you can help determine where they are currently.

The American eel has a complicated life history. It spawns in the Sargasso Sea near the Bermuda Triangle. The young eel drift up the American coast and as they become larger migrate up the St. Lawrence and Ottawa Rivers and their tributaries. The eels in Ontario are all females and they spend 10 to 30 plus years living in Ontario fresh waters. As eel mature they stop feeding and then begin their long journey back to the Sargasso Sea where they spawn and die.

You are not allowed to keep an American eel if you catch one while fishing since they are an endangered species but the Ministry of Natural Resources would like you to report the following information:

- Location/waterbody caught/seen
- Date/Time of day
- Approximate water depth
- Estimate of length
- Bait used
- Name
- Phone
- E-mail
- Photograph

Please contact the Natural Resource Information Centre at **1-800-667-1940** to report this information.

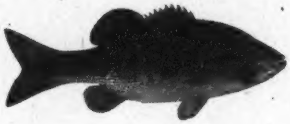
RECOMMENDED LURES FOR ONTARIO'S GAMEFISH

by LUCKY STRIKE

LUCKY STRIKE an Ontario fishing tackle manufacturer for 79 years, is proud to recommend our best selection in lures for some of Ontario's most popular game fish.

SMALLMOUTH BASS



Commonly referred to as smallies or bronzebacks the Smallmouth Bass are a thrill to catch because of their fierce fighting qualities.

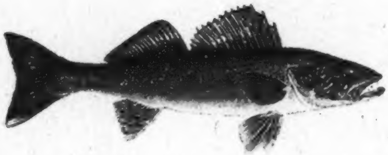
Main Diet: Crayfish, frogs, insects and fish eggs.

RECOMMENDED LURES:

Crankbaits, worm harness and spinnerbaits

Pro Series Spinnerbaits

WALLEYE



Walleye are one of the best tasting catches in Ontario. They get their name from their large glassy eyes which are very sensitive to sunlight. Dusk and dawn are ideal times for catching this favourite.

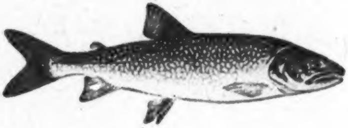
Main Diet: A wide variety of other fishes, especially perch.

RECOMMENDED LURES:

Lead-free jigs with grubtail or minnow and spinners

June Bug Spinner

LAKE TROUT

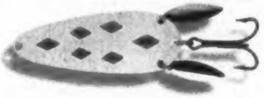


Lake Trout are found in deep water where they can retreat to cooler depths in the summer. Temperatures around the 10°C/50°F mark are preferred by this prized catch.

Main Diet: insects, opossum shrimp, herring and smaller trout.

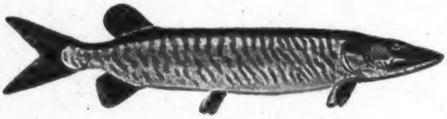
RECOMMENDED LURES:

Trolling spoons with a wide range of colours



Warden's Worry

MUSKELLUNGE

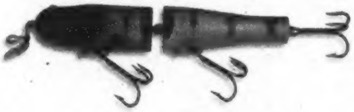


An Ontario favourite due to the Musky's fierce darting attack and because of their large size. The Canadian angling record from Blackstone Harbour, Georgian Bay, Ontario is 29.48 Kg, or 64.99 lbs.

Main Diet: other fish, frogs, small mammals and waterfowl.

RECOMMENDED LURES:

Large plugs, bucktail spinners, spoons and spinner baits



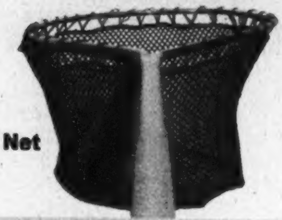
Ol' Wooden Musky Plug

Catch Fishing
www.catchfishing.com

Lucky Strike presently manufactures close to 2,000 different tackle items and landing nets. If you want to purchase any of the above favourites check with your local tackle retailer or contact Lucky Strike at 1-877 LURES4U (587-3748) or www.luckystrikebaitworks.com for more information.

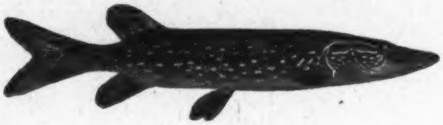
LUCKY STRIKE

LUCKY STRIKE. provides Ontario's anglers with a wide variety of equipment to land their catch safely and quickly. New designs incorporating flat bottom landing net bags with rubberized mesh, cradle the fish, presenting it to the angler for easy handling.



Basket Net

NORTHERN PIKE



Pike are solitary and are found in lakes and rivers where the water is still or in slow currents. Females grow larger, faster and live longer than males; life span is up to 26 years.

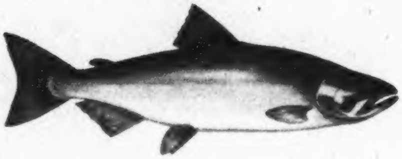
Main Diet: Over 90% of the diet for adult Pike are other fish, mainly Yellow Perch and shiners. Frogs, crayfish, mice, muskrats and ducklings provide meals as well.

RECOMMENDED LURES:

Trolling Spoons and Plugs of red and white colour combinations are most effective

Half Wave Spoon

CHINOOK SALMON



Chinook Salmon have been stocked in the Great Lakes region which has enhanced the sportfishing and tourism industries of Ontario. More commonly known as King Salmon, this fish species is sought after by anglers because of its fierce fighting power and size.

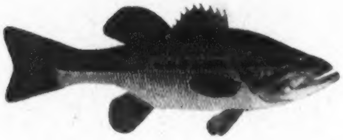
Main Diet: Freshwater herring, smelt, crustaceans and insects.

RECOMMENDED LURES:

Flutter spoons on downriggers and .75 to 1.3 ounce spoons for flatlining. Silver combinations and glow in the dark colours are popular

Canoe Wobbler

LARGEMOUTH BASS



Most popular in Southern Ontario the Largemouth Bass can be found in calm shallow areas of lakes and large river bays. Unlike its cousin, the Smallmouth Bass, it favours heavy aquatic vegetation and submerged logs.

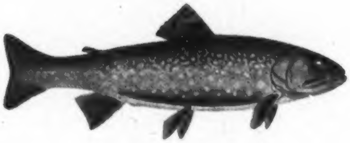
Main Diet: A variety of fishes, insects, leeches, crayfish, frogs and mice.

RECOMMENDED LURES:

Recommended Lures. Soft plastic worms and frogs, surface baits, crankbaits and jigs

Texas Weedless

BROOK TROUT



Other common names for this fish are Speckled Trout, Squaretail and Brookie. Specks can be found in Central and Northern Ontario streams and lakes, usually in less than 20°C water. Favourite spots are shaded areas like under fallen trees, underneath banks, and behind rocks.

Main Diet: Food includes aquatic insects, various fish including their own young, frogs, salamanders and mice.

RECOMMENDED LURES:

Spinners, spoons, plugs, jigs, wet and dry flies

My Angler is just right.

"My Angler is built tough with .100 gauge aluminum but still just the right size to get into any lake I want. It's easy to tow, has plenty of storage, two huge fishing decks and I love how easy cleanup is with the all-vinyl interior."
